The History of Haiti's suffering and its potential Future

Societies and Cultures Destroyed

Captured Slaves

History:

- They were happy and proud people, living in Villages alongside their Family and within their established Culture.
- They thrived throughout history because "It Takes a Village to Raise a Child."
- They were Hunted, Captured, Transported, and Sold by Traders to do their Owner's bidding.
- Their culture was sent into turmoil and erased.
- These events occurred world-wide.
- Entire cultures were lost and families dissolved, by greedy outsiders with no compassion.

People enslaved and Transported

Initial Result:

- They lost their Villages, Families, and Culture.
- They went from being Proud people who were bound together throughout their history, to being displaced and separated with no opportunity to rejoin and restart their society.
- They were worked for very long hours.
- Their children belonged to their owners, so their culture was destroyed.
- Few Slaves became educated.
- Fewer Slaves earned their Freedom
- Eventually some slaves were displaced to Haiti where their struggle began again, without the help of the world that caused their original problem.
- They became the Poorest Country in the world.

Slaves Relocated To Haiti

Haitian Problems:

- Without villages, history, and culture they were forced to start a new society from the beginning after gaining their independence in 1804.
- Haiti was the second country to declare its independence after the United States of America.
- Without education and experience, their government was subject to dictators and corrupt politicians.
- Without country resources, infrastructure, and proper leadership they were subjected to fraud and corruption.
- The people of Haiti suffered many natural disasters, but received very little honest assistance from the world,
- Instead, the world designated corrupt people and organization to rebuild Haiti, which resulted in the stealing of funds and few, if any, improvements to the infrastructure and people.

Building a future from scratch

Rebuilding their Society:

- Take charge of their own country through Laws and an election system based on "One Person – One Vote" that eliminates Fraud and Corruption.
- Improve the countries; Agriculture, Infrastructure, Educational System, Healthcare, Living Conditions, Sanitation and Sewage Disposal, Trade, and Employment.
- Establish a strong tax foundation and insure funds are distributed as designated by the voting citizens and not corrupt politicians or greedy outsiders.
- Take charge of your own by improved living conditions and lifestyles.
- Become proud again and build a society that would become the envy of the world.
- Lead and Don't Follow.
- Rebuild the family and village so that your culture is reborn and improved upon.
- Show the world the right way to treat your citizens and neighbors through RESPECT and HUMANITY.

History Lost

Culture Destroyed

Hunted and Captured

Caged and Relocated

Sold into Slavery

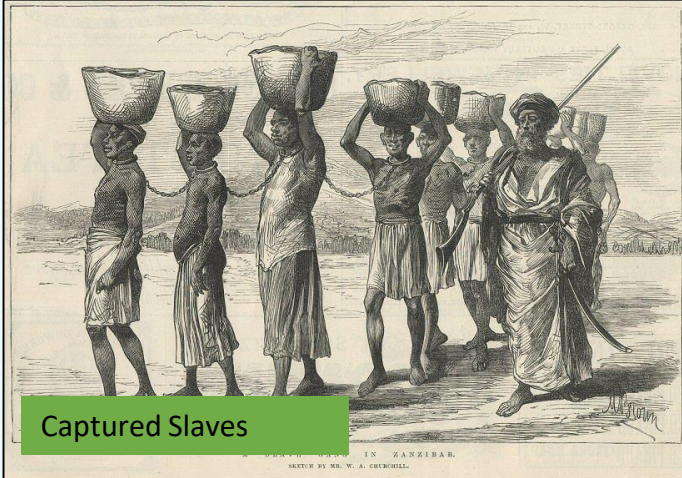

Relocated to Haiti

Rebuild Culture in Haiti

Set World Example

A population born from Slavery

Societies
and Cultures
Destroyed

“A country of people whose past was based on misery and many years searching for a way to reform their culture and society in a new country and against all odds.”

History:

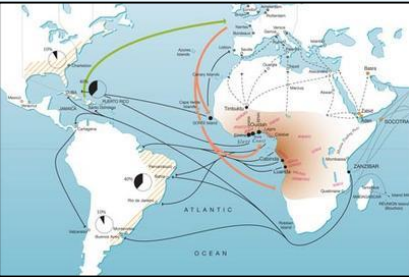

- They were happy and proud society of people, living in Villages alongside their Family and within their established Culture.
- They thrived throughout history because they believed **“It Takes a Village to Raise a Child.”**
- They were Hunted, Captured, Transported, and Sold by Traders to do their Owner’s bidding.
- Their culture was sent into turmoil and erased.
- These events occurred world-wide.
- Entire cultures were lost and families dissolved, by greedy outsiders with no compassion.

People Enslaved and Transported

People
enslaved and
Transported

From around the world in
sub-human ways that led
to many deaths and misery.

Initial Result:

- They lost their Villages, Families, Culture, and Society.
- They went from being Proud people who were bound together throughout their history, to being displaced and separated with no opportunity to rejoin and restart their society.
- They were worked for very long hours.
- Their children belonged to their owners, so **their family and culture were destroyed.**
- Few Slaves became educated.
- Fewer Slaves earned their Freedom.
- Eventually some slaves were displaced to Haiti where their struggle began again, without the help of the world that caused their original problem.
- They became the **Poorest Country in the world.**

Slaves Relocated to Haiti

Slaves
Relocated
To Haiti

Haitian Problems:

- Without villages, history, and culture they were forced to start a new society from the beginning.
- **Haiti was the second country to declare its independence in 1804 after the United States in 1776.**
- Without education and experience, their government was subjected to dictators and corrupt politicians.
- Without country resources, infrastructure, and proper leadership they were subjected to fraud and corruption.
- The people of Haiti suffered many natural disasters, but received very little honest assistance from the world,
- Instead, the world designated corrupt people and organization to rebuild Haiti, which resulted in the stealing of funds and few, if any, improvements to the infrastructure and people.

Building a Haitian Future from Scratch

Building a
future from
scratch

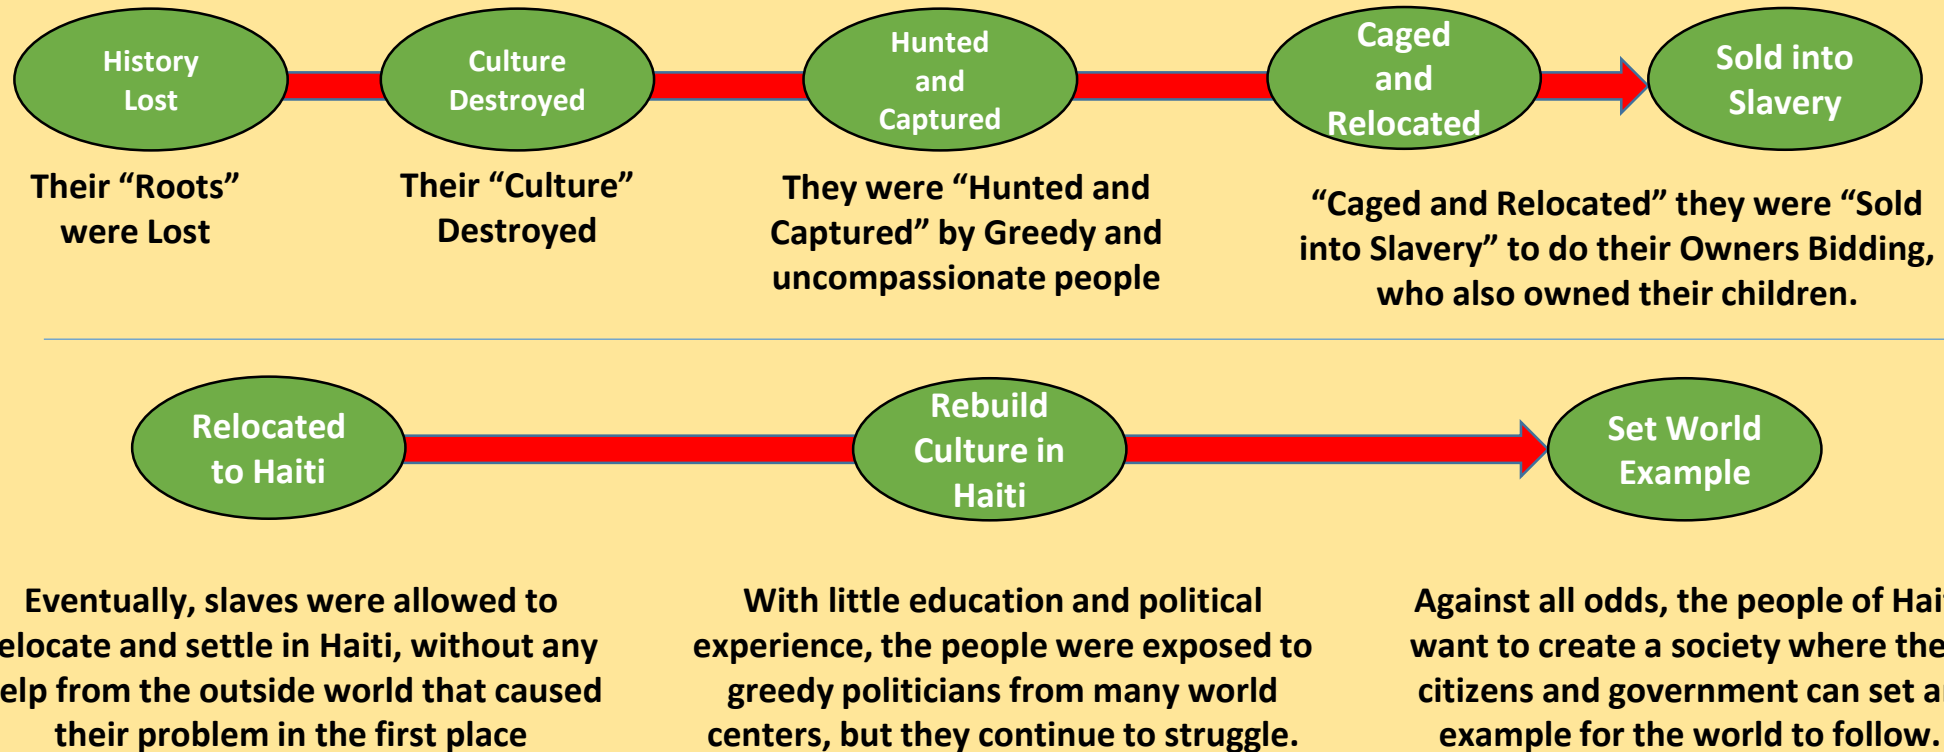

Rebuilding their Society:

- Take charge of their own country through Laws and an election system based on “**One Person – One Vote**” that eliminates Fraud and Corruption.
- Improve the countries; Agriculture, Infrastructure, Educational System, Healthcare, Living Conditions, Sanitation and Sewage Disposal, Trade, and Employment.
- Establish a strong tax foundation and insure funds are distributed as designated by the voting citizens and not corrupt politicians or greedy outsiders.
- Take charge of your own by improved living conditions and lifestyles.
- Become proud again and build a society that would become the envy of the world.
- “**Lead and Don’t Follow**”, became their **Motto**.
- Rebuild the family and village so that your culture is reborn and improved upon.
- Show the world the right way to treat your citizens and neighbors through **RESPECT, COMPASSION, and HUMANITY**.

A proud people who want to set a world example

Building a
future for
Haiti

"The people of Haiti are a proud and struggling society who are determined to gain freedom and have honest and fair representation through a Voting System based on "One Person – One Vote" and free of Fraud and Corruption." The system uses a bio-metric Voter ID Card to guaranty an individual's identity.

Alex St-Gardien Jecrois's Ten Point Dream for Haiti – Part 1

1. **Alex St-Gardien Jecrois** was born in Haiti and is now working for the United States Government
2. Alex has seen the living conditions in Haiti decline and has been deeply affected by the suffering of the people at the hands of greedy and unscrupulous politicians, even after Earthquakes and Hurricanes
3. After long thought and many discussions, Alex believes he must help convert the Haitian society into a free and dynamic culture where citizens can be proud of their country and secure in the future of their family
4. Improving the living conditions of Haitians was paramount in Alex's decision
5. Alex believed Haiti must begin by implementing a solid voting system that could not be compromised by outsiders, or corrupt politicians

Alex St-Gardien Jecrois's Ten Point Dream for Haiti – Part 2

6. Alex recruited the help of **Tom Bronack** to design and build the right voting system for Haiti
7. The **eVOTE** electronic voting system evolved from that concept and **JASTGAR Systems** was founded
8. We believe our **eVOTE** System will solve Haiti's fraud and corruption problems through the use of a **Bio-Metric based Voter ID Smart Card** to **verify an individual's identity**, while our system **validates they only voted once**
9. We have added a **Private Encryption Key** to the Card to **secure data from end-to-end** and our system's **security features will guaranty integrity**
10. Alex has attempted to spread the word about the **eVOTE** system through radio interviews, many White Papers and concept mailings, and a presentation to the Haitian OEA Ambassador in Washington, DC. Now he needs your help to complete his dream of a free and independent Haiti as a world leader.

How the JASTGAR *eVOTE* System can Help Haiti

JASTGAR family of products includes the *eVOTE* Electronic Voting System that is based on “One Person – One Vote” and is capable of eliminating Voter Fraud and Corruption (ending double voting and ballot box stuffing).

The system will **enhance the life style of Citizens** and **raise the esteem of the Government** in the eyes of the world.

The system is **paperless**, capable of producing **voting results in near real-time**, and is based on the “**Best Practices**” from the latest technology. By implementing this system, you will have a **State-of-the-Art system that will sustain voting operations for years to come with minimal additional costs.**
